📍 Surkhandarya, Denov. Uzbekistan.

## PROFIL

AI engineer passionate about building intelligent systems that solve real-world problems. Strong foundation in machine learning, data science, and full-stack development. Focused on creating scalable AI solutions and transforming ideas into impactful digital products. Actively competing in startup ecosystems and continuously improving technical and leadership skills.

## EDUCATION

### SOFTWARE ENGINEERING

TATU Samarkand Branch  
2022-2026

Foundation in algorithms, software engineering, and system design.

### DATA SCIENCE PROGRAM

School 21  
2025-2026

Project-based AI/ML practical training with peer collaboration.

## SKILLS

### Python & Machine Learning

Building and training ML models for real-world problem solving.

Experience with PyTorch and Scikit-learn workflows.

### Data Science

Data preprocessing, analysis, and model evaluation.

Turning raw data into actionable insights.

### Frontend Development

Developing scalable React applications with TypeScript.

Component-driven UI and API integration.

### Engineering Tools

Git/GitHub workflow, Docker basics, Linux environment usage.

Efficient debugging and development practices.

### Professional Skills

Leadership in competitive tech environments.

Rapid problem solving and startup-focused thinking.

## EXPÉRIENCE

### TEAM LEAD — NATIONAL AI HACKATHON

2026

Led AI startup prototype in competitive hackathon environment.

Ranked 6th place in our category among national teams. Designed technical architecture and coordinated development strategy.

### QA TESTER / DEVELOPER — GLOBAL GAME JAM

2026

Collaborated in rapid game development sprint.

Team achieved 1st place in competition.

Contributed to testing, gameplay balancing, and product delivery under strict deadlines.

### STARTUP TEAM LEAD — RED BULL BASEMENT PROGRAM

2026 – Present

Participating in international startup innovation program.

Developed and submitted 10+ startup concepts focused on AI-driven solutions.

Led ideation, rapid prototyping, and product strategy.

## EXPERTISE

- AI system design
- Machine learning model development
- Data-driven decision making
- Startup product thinking
- Rapid prototyping
